

These tables provide ASA member market share by state for those physician anesthesiologists ≥ 40 years of age and those < 40 years old.

- The states are sorted from low to high ASA market share of physicians < 40 years old.
- Age data were not available (*n/a*) for approximately 2,200 physicians (4.4%). ASA's market share for these physicians is nearly zero (0.2%).
 - This may indicate that these physicians are older, retired or otherwise inactive.
- These data exclude physicians who are retired, inactive, >70 years old, and residents.
